Instant Hand Sanitiser

Description

Instant Hand Sanitiser is a liquid hand sanitiser. It is specially formulated for food handling, hospitality and nursing care. Instant Hand Sanitiser provides a lasting barrier against all bacterial organisms and is a terminal sanitiser. The product minimises cross infection and eliminates the use of gloves.

Directions for Use

Wash hands with a liquid hand soap and then thoroughly dry hands.

Apply "one pump dose" of Instant Hand Sanitiser to the palm of one hand. For complete protection, work into hands, between fingers and under fingernails.

Instant Hand Sanitiser will air dry immediately and no rinsing with water is required.

Pack: 500ml Pump Pack
